

CHAPTER 14.2.

CONTAGIOUS AGALACTIA

Article 14.2.1.

Recommendations for the importation of sheep and goats

Veterinary Authorities of importing countries should require the presentation of an *international veterinary certificate* attesting that the *animals*:

- 1) showed no clinical sign of contagious agalactia on the day of shipment;
 - 2) were kept since birth or for the six months prior to shipment in an *establishment* where no case of contagious agalactia was officially reported during that period;
 - 3) were kept in a *quarantine station* for the 21 days prior to shipment.
-
