VETERINARY CERTIFICATION

I....., being an Official Veterinarian of the New Zealand Ministry for Primary Industries, certify after due enquiry in regards to the animals identified in the Zoosanitary Certificate, that:

1. No case of rabies has ever occurred in New Zealand.
2. The animal has been inserted with a microchip.
3. The animals have been examined and found to be fit and healthy to travel, free from ectoparasites and from infectious and contagious disease at the time of export.

Official Veterinarian
New Zealand Ministry for Primary Industries

.....
Official stamp and date

Name and address:

.....
Note. The Official Veterinarian must sign, date and stamp each page of the veterinary certificate using a different colour ink to the paper and the print, and, where applicable, sign, date and stamp each page of the documents (e.g. laboratory reports) that form part of the extended health certification.

EXPORT CERTIFICATION

(This is not part of the official certification)

COMMODITY: **CATS AND DOGS**

COUNTRY: **KOREA**

NOTES: This certificate replaces that dated 1 March 2013. It has been updated to remove the requirement for residency in New Zealand prior to export.

1. An Import Permit is not required
2. The number of animals allowed to be imported without prior notification is four animals or less. If more than four animals are to be imported into Korea, then the National Veterinary Research and Quarantine Service branch office of entry need to be informed in advance so that animals can be held in a quarantine area for one day.
