### III Attestation

I (the undersigned Official Veterinarian) do hereby certify that:

1. the pet birds or commercial birds to be exported to the Republic of Korea have been hatched and raised in Finland or have stayed in Finland for at least 30 days prior to export. This requirement can be exempted for pet birds meeting the requirements of attestation 3;
2. Finland has been free of highly pathogenic avian influenza (HPAI) according to the OIE Terrestrial Animal Health Code for 1 year prior to the export of the birds  
OR  
the Minister of Agriculture, Food and Rural Affairs of the Republic of Korea has recognized effective stamping out measures of Finland against HPAI and reduced this limit in accordance with the provisions of OIE;
3. the pet birds have undergone a clinical examination by an official veterinarian and have been found free of any clinical signs of infectious or contagious disease of poultry; and
4. the commercial birds have been isolated in a quarantine facility approved by the competent authority of Finland for at least 21 days prior to export. They have undergone a clinical examination by an official veterinarian and have been found free of any clinical signs of infectious or contagious disease of poultry.
